

Dear Commission,

K-LOVE radio station serves my family and myself, in our local community, in an undescrivable way. We have this station playing at home and in our vehicles constantly. I can not even guess how many hours a month we listen to this upbeat station. Our home doesn't contain a TV, our radio is our companion. We are either listening to K-Love and playing tapes of old time radio stories.

If an LPFM radio broadcaster is allowed to displace K-LOVE, it will have a monumental effect on the city of Fairbanks. It would seem to me that our city just might have to allot funds to enlarge our jail system. K-LOVE speaks about love, caring, forgiving, and commitments that are hard to find in our society anymore. I should know, I work at a High School.

I believe that the service of K-LOVE is not only in the public's best interest, I believe it is essential for our city. Even without ghettos in our city, there are many downtrodden and discouraged. Please do not take our station away, do not take something that can uplift them and me too.

Sincerely,

Lee A. Reiss
